**SMITH  
2008**

## The Negro Problem & the Mingling of Races:

### *What's the solution?*

Our opponents have misrepresented the Smith Campaign for long enough. Here is what the candidate actually believes:

### *"Negroes and Freedom are Incompatible.*

This is clear from our nation's history and doubly clear when we visit any inner-city slum. *My proposals are straight forward:*

### *"Segregation First; Ownership Next.*

Clearly we can't return to owning Negroes ["the blacks"] overnight; it must come incrementally. We can begin by segregating the races in the military, our schools, public transportation, churches, restaurants, and all public facilities. From there, we proceed to ownership.

### *"Servant Acquisition and Ownership.*

Obviously the term 'slavery' is outdated, but it is clear that whites are a superior race and have an inherent right to own Negro servants. We must pass laws that restore the "right to own."

### *"Not my Only Issue, nor my Main Issue.*

You may not agree with me on Negroes – (frankly, I would never own a Negro) – so my promise is this: I will focus on the issues that matter to us all: the war, immigration, health care, and our security from terrorists. I seek your vote based on what we have in common; not on any single issue. Together, we can have a great future, no matter where we stand Negroes and the white man's "right to own."

*Are you offended yet? You should be!*

**There is no candidate Smith who supports slavery...**

**But if there was, would you betray your Christian faith to vote for him—even if you agreed on all the other issues?**

**Or would the candidate's support of slavery *automatically disqualify* him from holding office?**

**In other words: Would you be a "one issue" voter if the "one issue" was slavery?**

**Now; here is a test on ethics:**

**Which is a worse crime: *slavery or murder?***

**The correct answer: murder. (A slave can get free, but a murder victim cannot get "undead.")**

*continued on back panel...*

**The Daily Gazette says:**  
*“A practically perfect resume for our community...while the Smith Campaign’s position on ‘Negro acquisition’ is troubling for some, the platform – from Health Care to the War on Terror –is virtually inspired.”*

**The Times Says:**  
*“While we do not agree with the Nominee’s stance on ‘the Negro problem’ (and we all know there is a problem), every other campaign pledge Smith has made is perfect for our community. Should a stance on segregation and slavery disqualify someone from office? We think not. Let the religious extremists and single issue voters who oppose Smith find someone better.”*

*...continued from inside*

**A slave can get free; but a murder victim cannot get “undead.”**

**Should a Christian vote for someone who supports slavery?**

***Then how can a Christian vote for a candidate that supports the murder of children by abortion?!***

***Be consistent!! No Christian may in good conscience vote for any candidate, from any party, for any office, who supports the slaughter of children by abortion.***

To vote for “pro-choice” candidates [I.e., Rudy or Hillary] is to aid in the sin of child-killing; you betray innocent blood, your faith, and the very Law of God.

Think! If you drive someone to the bank *you know* intends to rob the bank, you have participated in the sin of bank robbery. If you help someone get into office *you know* intends to kill children, you have participated in the sin of child-killing. Do the right thing: vote according to principle, not party; life, not death.

Problem.’**

*Finally! A Candidate who has the courage to deal with “race mixing” resolutely, and is right on the other issues that affect our families!*

***Can the Smith  
Campaign count on your  
vote in this election?***
